

CAREER OBJECTIVE

Dedicated Full Stack Developer with a strong problem-solving mindset and a solid foundation in React, Next.js, Node.js, TypeScript, and PostgreSQL. My career goal is to architect scalable, high-performance web applications while continuously growing as a software engineer. Seeking an entry-level position where I can utilize my technical skills to effectively contribute to the company's success.

TECHNICAL SKILL

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Framer Motion

Backend & Database: Node.js, Express.js, TypeScript, PostgreSQL, Prisma ORM, MongoDB, Firebase

Version Control & Deployment: Git, GitHub, Vercel, Netlify

PROJECTS

Roots of Biology — Full-Stack LMS

[Live](#) | [YouTube](#) | [Github](#)

- Engineered a comprehensive LMS adopted by 100+ active students, streamlining administrative operations and academic workflows.
- Implemented a 4-tier role system (User, Student, Moderator, Admin) with request-approval workflows: Admins handle user moderation (Ban/Unban) and promote moderators, while Moderators approve student requests to unlock special materials.
- Empowered moderators with complete resource management tools, including PDF creation, upload, editing, and deletion with batch-wise access control, batch timing configurations, and result publishing.

Tech Stack: Next.js, TypeScript, Tailwind CSS, Framer Motion, Shadcn UI, Prisma, PostgreSQL, Vercel

RentNest — Rental Property Marketplace

[Live](#) | [YouTube](#) | [Github](#)

- Developed a full-featured rental platform with Next.js (App Router), featuring advanced search filtering and secure image uploads.
- Implemented role-based access control (RBAC) for Tenants, Landlords, and Admins, supporting secure JWT authentication.
- Integrated Stripe for secure payment processing and built interactive dashboards for real-time rental request tracking and status updates.
- Utilized Prisma ORM with PostgreSQL for data integrity and Server Actions for efficient server-side operations.

Tech Stack: Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Stripe
